[LinkedIn](#) · [GitHub](#) · [Website](#)

Solving problems with reliability & commitment to excellence. Proficient in React, Vue.js & TypeScript.

Aug 2021 to Nov 2023 · 2 yrs 4 mos

**Sr. Software Developer, Vue.js, TypeScript** · Full-time · [One Data, Remote](#)

*Green-field project, March 2023 to November 2023* · Led the frontend development using modern stack such as Vue 3, TypeScript, Pinia, Vuetify, etc. · Challenged designers and product manager helping refine user stories · Organised user stories into smaller subtasks initiating kick-off by doing API-contracts with backend developers · Developed UI component library for new Design System from scratch

*Data Cartography Map Custom Component, Aug 2021 to February 2023* · Developed SVG-based interactive map showcasing data assets as nodes, and clustering them based on hierarchy · Improved rendering & interaction performance to ensure visibility of 10,000+ nodes in one viewport. · Mentored junior developers and onboarded new principal developers on the huge code base · Maintained & upgraded existing UI component library in-use by multiple teams across the company

**Key achievement:** Alongside learning a new framework, i.e Vue.js, I learnt many mentorship & self-organisation skills, while delivering high-quality code.

Aug 2019 to Jul 2021 · 2 yrs

**Full-stack Engineer, React, TypeScript, GraphQL, Node.js** · Full-time · [Makers' Den, Berlin, DE](#)

*Makers' Den is a Berlin-based JavaScript agency specialising in React ecosystem* · Integrated into [OLX Group](#)'s internal product teams to implement a moderation tool (detecting fraud in ads & chat) using React, GraphQL and our own backend-for-frontend (BFF) · Implemented various other web apps & websites for different clients while learning latest technologies like TypeScript, GraphQL, Gatsby, NextJS, Tailwind & Cypress · Was a part of multicultural & cross-functional teams at client companies, including [OLX Group](#), [FRI:DAY](#) & [Arcensus](#) · **Key achievement:** Led successful integration of innovative technologies in diverse client projects, showcasing adaptability and expertise at a leading JavaScript agency.

Sep 2018 to Jul 2019 · 11 mos

**Front End Engineer, React, Redux** · Full-time · [Modifi, Berlin, DE](#)
